**METHOD FOR DETERMINING THE ROTATIONAL
SPEED OF A PART, ASCERTAINING THE SLIPPING OF
A CONTINUOUSLY VARIABLE TRANSMISSION (CVT),
AND FOR CONTROLLING A CVT, AND A CONICAL DISC
FLEXIBLE DRIVE TRANSMISSION**

RESTRICTION

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, the Applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-6 and 16-18, drawn to a method for determining the rotational speed of a part.

Group II, claims 7, 8, and 12, drawn to a method for determining CVT slippage based on a gear ratio rate of change.

Group III, claim 9, drawn to a method for determining CVT slippage based on an acoustic parameter.

Group IV, claim 10, drawn to a method for determining CVT slippage based on temporal change of the transmission output rotational speed.

Group V, claims 11 and 15, drawn to a method for determining CVT slippage based on temporal change of wheel brake force.

Group VI, claim 13, drawn to a method for controlling a CVT.

Group VII, claim 14, drawn to a cone pulley belt transmission.

The inventions listed above as groups I-VII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features.

The Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

The Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
